KEENIAN KNOTT

Entry-Level IT Help Desk / Technical Support

Baltimore, MD | (240) 923-4127 | keenianknott91@gmail.com
linkedin.com/in/keenianknott | github.com/keenianknott91-ops | keenianknott91-ops.github.io

PROFESSIONAL SUMMARY

CompTIA Security+ certified (07/2026, A+ in progress) candidate seeking an entry-level IT help desk or technical support role. More than two years in customer-facing roles built calm, accurate communication and detailed documentation under pressure. Home labs in Active Directory, Entra ID, Microsoft 365 and osTicket provide hands-on practice with user accounts, group access, VPN troubleshooting, MFA resets, ticket documentation, and escalation per SLA. U.S. citizen, shift flexible, available to start immediately.

CERTIFICATIONS

CompTIA Security+ (SY0-701) — Issued 07/2026 | Expires 07/2029
CompTIA A+ (220-1201 / 220-1202) — In Progress
Google Cybersecurity Professional Certificate — Google / Coursera, 05/2025

TECHNICAL SKILLS

Service Desk Tools: osTicket ticketing, ServiceNow (exposure), incident logging, triage and escalation, SLA adherence, RDP
Directory & Identity: Active Directory, Entra ID, user provisioning, onboarding/offboarding, MFA reset. Learning: password resets, Group Policy
Operating Systems: Windows 10/11, Windows Server (lab environment)
Productivity & Cloud: Microsoft 365 admin center, Outlook, SharePoint, OneDrive, Teams, license assignment
Networking: TCP/IP, DNS, DHCP, VPN, Wi-Fi troubleshooting, network cabling

TECHNICAL PROJECTS

Help Desk Ticket Labs (ServiceDesk Simulator) **10/2026**
Personal Project — github.com/keenianknott91-ops/helpdesk-labs

- VPN disconnect (HIGH): Remote Desktop to the user's PC, ran ipconfig /flushdns, reconnected the VPN client, and confirmed an active tunnel before closing.
- New hire setup: checked for an existing account, created the AD user, and assigned role-based security groups before the HR deadline.
- 3rd floor network outage (CRITICAL): scoped a floor-wide outage, isolated and restarted the Floor 3 switch, then verified and closed.
- Second monitor No Signal (MEDIUM): ruled out hardware from the user's tests; updated the display driver to restore it.
- Internet down (HIGH): ruled out internal network, confirmed upstream ISP outage, and sent company-wide update with ETA.
- New hire onboarding (LOW): confirmed approval, created AD user abaker, and added her to the Support Team group.
- MFA not working (CRITICAL): verified identity, reset MFA for the locked-out user, and confirmed re-enrollment after she logged back in.

osTicket Help Desk Lab **08/2026**
Personal Project — github.com/keenianknott91-ops/osticket-helpdesk-lab

- Deployed osTicket and MySQL with Docker Compose; worked tickets through assignment, prioritization, resolution, and closure.
- Configured the osTicket help desk environment with agent roles, departments, SLA settings, and ticket queues.

Microsoft Entra ID Help Desk Lab **09/2026 – Present**
Ongoing Personal Project — Entra ID tenant

- Administer the user lifecycle: provisioning, bulk CSV imports, name changes, transfers, and offboarding with session revocation.
- Build security, M365, and dynamic groups (github.com/keenianknott91-ops/entra-ad-lab-series). Simulator MFA reset done; next up in this lab: password resets.

Active Directory & Windows Server Home Lab **08/2026 – Present**
Ongoing Personal Project — Hyper-V virtualized environment

- Create, modify, and disable accounts; manage group membership and permissions. Next up: PowerShell and Group Policy.

WORK EXPERIENCE

Loss Prevention **03/2026 – Present**
Marshalls — Baltimore, MD

- Help keep the store safe and secure by staying alert to suspicious activity and following loss prevention procedures.
- Work with store associates and management to report incidents and support a safe shopping environment for customers.

Apprentice Electrician **07/2024 – 05/2025**
Crown Electrician — Baltimore, MD

- Documented equipment issues and repairs, and explained technical problems to clients in plain language.
- Diagnosed and resolved faults in residential and commercial electrical systems using root-cause troubleshooting.

Loss Prevention / Asset Protection Associate **08/2023 – 07/2024**
Burlington — Baltimore, MD

- Handled high-volume phone and two-way radio traffic in a fast-paced retail environment, relaying information accurately and staying courteous with customers and staff.
- Investigated incidents, gathered facts, and wrote accurate, detailed reports — the same documentation discipline used in ticketing.

- Coordinated with management and law enforcement, communicating findings clearly and professionally under pressure.

EDUCATION & PROFESSIONAL DEVELOPMENT

High School Diploma — Information Technology **2023**

Coppin Academy — Baltimore, MD

Full-time self-directed IT study, 05/2025 – Present — networking fundamentals, endpoint support, and security operations.
